Software for an auction house

Keep your bidders where they are. Run the office behind the platforms.

What it does

- Take a consignment in with photos and the written consignment contract printed and signed on the spot; every item gets one lot record with its location and a QR label.
- Put lots into sales on any platform.
- Buyer invoices with your buyer's premium and the tax flags; unpaid invoices are a list on the dashboard, never automatic overdue notices.

Founding customers

The first five businesses to choose TEG Auction House get their first year at half price - $474.50 instead of $949.

In return: a short selfie testimonial - a quick video on your phone, or a written quote with a photo, whichever is easier for you - permission to name you as a customer, and your honest feedback. We will e-mail you now and then to ask how it is going, and our feedback page is always open for comments, criticism and suggestions - all very welcome.
