Software for a deli or sandwich shop

Sell by weight with the tare taken off, take catering and party-tray orders with a deposit, and run call-ahead pickup from a board. Labels and the day's prep list print themselves - from your own...

What it does

- Sold by weight: the scale reading in, the container tare off, the price worked out - "$8.99 / lb" on the menu and the order.
- Catering and party trays.
- Call-ahead pickup with numbers, a pickup board for the TV and Ready / Picked up.
- Package labels with net weight, price per pound, ingredients and allergens; use-by and discard dates.
- Shelf items with stock counts and low stock at the top.

Price

$549 a year or $2,745 once, one site.

Pro, which also carries the language packs, $949 a year or $4,745 once.

Founding customers

The first five businesses to choose TEG Deli get their first year at half price - $274.50 instead of $549.

In return: a short selfie testimonial - a quick video on your phone, or a written quote with a photo, whichever is easier for you - permission to name you as a customer, and your honest feedback. We will e-mail you now and then to ask how it is going, and our feedback page is always open for comments, criticism and suggestions - all very welcome.
