Software for an auto repair shop

Run repair orders, inspections and invoices from your own website.

What it does

- A brake job BOOKS at 1.8 hours - what the customer pays and what a flat-rate technician earns.
- That matters because a technician at 70% efficiency and 95% productivity has a completely different problem from one at 70% and 60% - and the two look...
- Authorization is a RECORD, not a flag.
- A YES texted back to an estimate never authorizes anything by itself.

Price

$795/yr or $3,995 once.

Pro $1,295/yr or $6,495 once.

Founding customers

The first five businesses to choose TEG-AUTOSHOP get their first year at half price - $397.50 instead of $795.

In return: a short selfie testimonial - a quick video on your phone, or a written quote with a photo, whichever is easier for you - permission to name you as a customer, and your honest feedback. We will e-mail you now and then to ask how it is going, and our feedback page is always open for comments, criticism and suggestions - all very welcome.
