Software for a bed and breakfast

Take bookings, run the house and keep the money straight from your own website.

What it does

- A room night can be sold once. A second booking for it is refused, every time.
- The single free nights between stays are found, so you can sell them.
- Guest e-mails in the house's language, and each staff member's screens in theirs - Spanish or French, with Pro.
- Calendar sync told honestly.
- A breakfast sheet that keeps ALLERGIES APART FROM PREFERENCES.

Price

$495/yr or $2,475 once.

Pro $845/yr or $4,195 once.

Founding customers

The first five businesses to choose TEG-BANDB get their first year at half price - $247.50 instead of $495.

In return: a short selfie testimonial - a quick video on your phone, or a written quote with a photo, whichever is easier for you - permission to name you as a customer, and your honest feedback. We will e-mail you now and then to ask how it is going, and our feedback page is always open for comments, criticism and suggestions - all very welcome.
