Software for a DJ company or an event band

Book your DJs and kits, plan the music and take the retainer from your own website.

What it does

- One license instead of a CRM plus a music-planning app.
- A DJ or a gear kit is never booked twice.
- No platform cut: payments go to your own account.
- The office runs the money, the DJ runs the gig.
- The DJ event sheet on one page.

Price

$299/yr or $1,495 once for one DJ or band.

Pro, multi-op with crews, gear kits, the pay report, guest requests and language packs: $499/yr or $2,495 once. A free 30-day Pro trial is built in.

Founding customers

The first five businesses to choose TEG LastDJ get their first year at half price - $149.50 instead of $299.

In return: a short selfie testimonial - a quick video on your phone, or a written quote with a photo, whichever is easier for you - permission to name you as a customer, and your honest feedback. We will e-mail you now and then to ask how it is going, and our feedback page is always open for comments, criticism and suggestions - all very welcome.
