Software for a farm

Keep fields, herds, the spray log and harvest lots in one place, with the records an inspector asks for printed in a minute. Sell at the farm stand, through a CSA or wholesale - from your own...

What it does

- An application log built to what Virginia asks a pesticide applicator to record.
- Inputs counted in lots - seed, feed, fertilizer and chemicals - with expiry dates flagged before they pass.
- Harvest lots for traceability.
- Spanish and French on Pro.

Price

$429 a year or $2,145 once, one site.

Pro, with TEG Back Office and the language packs: $629 a year or $3,145 once.

Founding customers

The first five businesses to choose TEG-FARM get their first year at half price - $214.50 instead of $429.

In return: a short selfie testimonial - a quick video on your phone, or a written quote with a photo, whichever is easier for you - permission to name you as a customer, and your honest feedback. We will e-mail you now and then to ask how it is going, and our feedback page is always open for comments, criticism and suggestions - all very welcome.
