Software for a food truck or cart

Tell followers where the truck is today, take festival and private catering bookings with a deposit, and keep permits and inspections on their renewal dates. See which stops really pay - from...

What it does

- Where we are: today's stop with "We're open now" on your website, the week's stops, and every canceled or moved stop with its reason.
- Spanish and French on Pro.
- Followers told once when the truck opens, by e-mail and (with consent) text, with an unfollow link.
- Festival, event, market and private bookings.
- Permits and inspections with what is coming up for renewal; the commissary, propane and fire-suppression log.

Price

$399 a year or $1,995 once, one site.

Pro, which also carries the language packs, $699 a year or $3,495 once.

Founding customers

The first five businesses to choose TEG Food Truck get their first year at half price - $199.50 instead of $399.

In return: a short selfie testimonial - a quick video on your phone, or a written quote with a photo, whichever is easier for you - permission to name you as a customer, and your honest feedback. We will e-mail you now and then to ask how it is going, and our feedback page is always open for comments, criticism and suggestions - all very welcome.
