Software for a home care agency

Run schedules, verified visits, plans of care and claims from your own website.

What it does

- Electronic Visit Verification wants six things about every visit.
- So the six are fields, captured in the home, with HOW each end was captured recorded beside it - because an office-entered time is the one an auditor pulls first.
- Each caregiver and office user can work in their own language, while invoices, receipts, the family page and the pay pages stay in the agency's.
- Corrections are NEW ROWS, never edits.

Price

$795/yr or $3,995 once.

Pro $1,295/yr or $6,495 once.

Founding customers

The first five businesses to choose TEG-HOMECARE get their first year at half price - $397.50 instead of $795.

In return: a short selfie testimonial - a quick video on your phone, or a written quote with a photo, whichever is easier for you - permission to name you as a customer, and your honest feedback. We will e-mail you now and then to ask how it is going, and our feedback page is always open for comments, criticism and suggestions - all very welcome.
