Software for a pawnshop or a precious-metals dealer

Run the buy counter, pawn loans, sales and the cash drawer from your own website.

What it does

- Live spot for gold, silver, platinum and palladium, and a melt value everywhere a figure is needed.
- Compliance out of the box.
- One switch turns the whole pawn side off, so a straight bullion dealer never sees a loan screen.
- The identification data — the part that matters most — sits in the shop's own database, on your own server.
- The pawn desk does the routine.

Price

$599 a year or $2,995 once, one site.

Pro $999 a year or $4,995 once. A free 30-day Pro trial is built in, with no sign-up.

Founding customers

The first five businesses to choose TEG-METALSSHOP get their first year at half price - $299.50 instead of $599.

In return: a short selfie testimonial - a quick video on your phone, or a written quote with a photo, whichever is easier for you - permission to name you as a customer, and your honest feedback. We will e-mail you now and then to ask how it is going, and our feedback page is always open for comments, criticism and suggestions - all very welcome.
