Software for a pest control company

Run service plans and routes, with a weather button when it rains, and write every pesticide application down from your product list. Termite reports, bait stations, invoices and a customer...

What it does

- Every application written down from a product registry.
- Technician licenses with expiry warnings; a restricted-use visit cannot be scheduled for a technician whose certificate is not current.
- Service plans - quarterly, monthly, mosquito season, termite bonds - that make the visits 16 weeks ahead.
- Bait stations and monitors numbered per property, checked on every visit.
- A referral offer and gift coupons on visit invoices, each off until you switch it on.

Price

$595 a year or $2,975 once, one site.

Pro, with TEG Back Office and language packs: $795 a year or $3,975 once.

Founding customers

The first five businesses to choose TEG-PESTCONTROL get their first year at half price - $297.50 instead of $595.

In return: a short selfie testimonial - a quick video on your phone, or a written quote with a photo, whichever is easier for you - permission to name you as a customer, and your honest feedback. We will e-mail you now and then to ask how it is going, and our feedback page is always open for comments, criticism and suggestions - all very welcome.
