Software for a therapy or counseling practice

Run the diary, session notes and billing for your practice from your own website.

What it does

- Under the privacy rule, psychotherapy notes are specially protected - outside the client's right of access, and generally needing a specific authorization to...
- Nearly every practice system has ONE notes field.
- Here they are two tables, two permissions and two screens, and the private one is excluded from every export, claim, portal page and API response by construction.
- THE BILLING CODE COMES FROM THE CLOCK, NOT THE DIARY.
- An authorization is a COUNTDOWN.

Price

$595/yr or $2,975 once.

Pro $995/yr or $4,975 once.

Founding customers

The first five businesses to choose TEG-THERAPIST get their first year at half price - $297.50 instead of $595.

In return: a short selfie testimonial - a quick video on your phone, or a written quote with a photo, whichever is easier for you - permission to name you as a customer, and your honest feedback. We will e-mail you now and then to ask how it is going, and our feedback page is always open for comments, criticism and suggestions - all very welcome.
