Software for a small veterinary practice

Run the practice - diary, consultations, dispensary and billing - from your own website.

What it does

- Every vaccination and every dispensed drug carries the lot it came from, so a batch recall is a query that names the animals rather than an afternoon with the day book.
- A closed consultation is the clinical record and is never edited away.
- Reminders are generated from the vaccinations, prescriptions and visits themselves, so the morning list is a query and not somebody's memory.

Price

$899 a year or $4,495 once, one site.

Pro $1,499 a year or $7,495 once. A free 30-day Pro trial is built in, with no sign-up.

Founding customers

The first five businesses to choose TEG-VETCLINIC get their first year at half price - $449.50 instead of $899.

In return: a short selfie testimonial - a quick video on your phone, or a written quote with a photo, whichever is easier for you - permission to name you as a customer, and your honest feedback. We will e-mail you now and then to ask how it is going, and our feedback page is always open for comments, criticism and suggestions - all very welcome.
