Software for a wholesale distributor with its own trucks

Run trade orders, picking, delivery and invoices from your own website.

What it does

- Scan a case and six units arrive, not one: a barcode belongs to a pack.
- Deliveries are checked against the order at the dock, while the driver is still there.
- Trade customers order online at their own prices.
- WHAT IS BILLED IS WHAT WAS DELIVERED.

Price

$1,495/yr or $7,475 once.

Pro, with TEG Back Office and the language packs: $1,695/yr or $8,475 once. A free 30-day Pro trial is built in.

Founding customers

The first five businesses to choose TEG-WHOLESALE get their first year at half price - $747.50 instead of $1,495.

In return: a short selfie testimonial - a quick video on your phone, or a written quote with a photo, whichever is easier for you - permission to name you as a customer, and your honest feedback. We will e-mail you now and then to ask how it is going, and our feedback page is always open for comments, criticism and suggestions - all very welcome.
